

A New Commemorative History Book - Celebrating 100 Years of Service **CALIFORNIA DEPARTMENT OF FORESTRY AND FIRE PROTECTION**

The story of fire fighting is one of service, dedication and pride. This story, our story, needs to be told—recorded for posterity and celebrated in the very personal and private way fire professionals appreciate.

For this reason, we are producing a commemorative history book to document our history of the CDF. It will record the proud history of our department and highlight the men and women who dedicate their lives to fire rescue.

Veterans of CDF understand the importance of what we do and the memories this album will preserve. For those who are new to the department, this book will demonstrate the proud tradition of your new career, a shining example of the call you have answered. The number of books printed will be based on the number of copies reserved in advance—*so don't miss out on this unique opportunity!* We want to be sure everyone is included!

This historical book will be printed in full-color with hundreds of historic photographs as well as candid and action photos. Events of the past years will be recorded, along with stories written by employees and retirees.

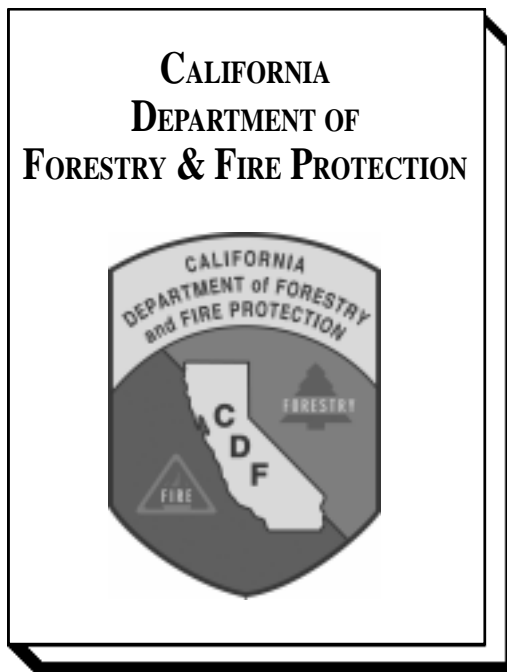

This is your album! You are encouraged to submit photos and stories from your personal collections for inclusion. Remember, our book will not be complete without you!

Please join us in support of this exciting project. Be sure and submit your photographs, stories and orders today!

Sincerely,

Dick Hayes, Deputy Chief of Public Education
